ASHTO TP 40-94

CORE COMPETENCIES

4Seasons® Pourable Pothole Filler is a no VOC, water-based pavement repair filler that is used to permanently fix asphalt and concrete pavement in all seasons. Its liquid viscosity upon mix and pour enables it to penetrate deep into cracks and voids like no other product on the market.

Available in 3 uniquely performing aggregate formulations, the versatile asphalt based filler retains its flexibility upon cure, giving permanent performance in asphalt and concrete alike, when applied according to manufacturer's procedures. Due to its fast setup, roads and runways can return to active status in as little as 10 minutes.

PRODUCTS

• Pourable Pavement Fillers:

1. Coarse Aggregate – Fills potholes and large wide cracks.
2. Fine Aggregate – Fills linear and alligator cracks and small potholes.
3. R4-Recycled Rubber Aggregate – Formulated for heavy loads and high abrasion.

• **Primer:** EcoBond – Used on all repairs to increase adhesion prior to adding filler.

SUGGESTED APPLICATIONS

• Asphalt • Concrete • Roads & Highways • Expansion Joints & Bridge Decks • Airport Tarmacs & Runways • Driveways • Parking Lots & Sidewalks • Warehouse & Garage Floors • Manhole Covers & Sewer Grates • Trip Hazards • Flat Roofs

DIFFERENTIATING BENEFITS

• DIY Pothole Application – No Special Tools or Training Needed • Liquid Viscosity Penetrates Potholes & Cracks for Superior Adhesion • Quick Material Setup • Permanent Pavement Repairs in All Seasons • Non-Toxic, "0" VOCs • Water Based-Fast & Easy Cleanup • Self-Leveling • Cost Effective – No Reapplication • Bucket or Bulk Application
