

6561 Bernie Kohler Dr, North Branch, MI 48461 USA

June 15, 2012

To Whom It May Concern:

KM International is a manufacturer of Asphalt Maintenance Equipment located in the State of Michigan. We have equipment in 27 countries around the world.

Over the years KMI has found that 4Seasons Pourable Pothole Filler is the best liquid pothole repair product that we have used. The 4Seasons product is a good compliment to our core products which use infrared technology for in-place recycling of asphalt.

Since this product is only available in 5 gallon bucket mix batches, KMI has been involved in research and fabrication of a continuous mix application trailer currently being used in Alaska on roads and airport runways. We feel the potential for the 4Seasons Pourable Pothole Filler product and continuous mix applicator is virtually unlimited, worldwide.

Sincerely,

A handwritten signature in black ink that reads "Ron Macey". The signature is written in a cursive style.

Ron Macey
